Speaker Bios

Tim Faveri Senior Manager, Corporate Responsibility and Sustainability Deloitte

Mr. Faveri has over 14 years of comprehensive environment, health and safety (EHS) experience aimed at strategy and management of environmental and occupational health and safety issues in industrial, institutional, government and commercial environments. He also has an extensive background in EHS risk management, internal audit teaming, management systems design and implementation, environmental liability assessments and corporate reporting on non-financial indicators. Mr. Faveri has provided environment, health and safety services throughout Canada, the United States and Mexico.

Joe Solly Senior Manager, Corporate Responsibility and Sustainability Deloitte

Mr. Solly provides risk management services throughout North America and Europe related to environmental, health, safety, corporate responsibility and sustainability matters. He has over 12 years of experience in the areas of integrated management systems design and implementation, improvement, training, organizational design, change management, strategic planning, and environmental liability management and controls in financial reporting of environmental matters. Mr. Solly also has significant experience with the auditing and advising of ISO 14001, ISO 9001, QS 9000 and OHSAS 18001.

Usha Sthankiya Manager, Corporate Responsibility and Sustainability Deloitte

Ms. Sthankiya coordinates the firm's environmental financial liability assessment services, including implementation and quality review components. She helps clients determine the extent and degree that their environmental-related risks are managed and she provides recommendations for improved processes and controls. Ms. Sthankiya also has experience assessing organizations' environmental liabilities and associated financial implications for the energy, forest products, mining, telecommunications, chemicals, manufacturing, real estate, and waste management industries. As a chartered accountant, she is also responsible for the assurance over non-financial information service offerings.
